

Dear Father John 

At first I didn't want to miss out playing by listening to your show, the after glow. I am 8 years old and my mom made me listen to you anyway. I learned the word inspire from you. I wrote the definition from the dictionary inspire, on a piece of paper and hung it on my wall all by my self. I like listening to you now because your funny and help me to understand God better. Your one of the funniest priests I know.

Thank you for inspiring me! 

your biggest fan,

Veronica 

Peace
